The nonfiction work Brave New World Revisited, first published in 1958, is a fascinating work in which Huxley uses his tremendous knowledge

of human relations to compare the modern-day world with his prophetic fantasy envisioned in Brave New World, including the threats to humanity, such as overpopulation, propaganda, and chemical persuasion.

An in-depth analysis of Aldous Huxley, his writings, and the historical time period in which they were written.

When the novel Brave New World first appeared in 1932, its shocking analysis of a scientific dictatorship seemed a projection into the remote future. Here, in one of the most important and fascinating books of his career, Aldous Huxley uses his tremendous knowledge of human relations to compare the modern-day world with his prophetic fantasy. He scrutinizes threats to humanity, such as overpopulation, propaganda, and chemical persuasion, and explains why we have found it virtually impossible to avoid them. Brave New World Revisited is a trenchant plea that humankind should educate itself for freedom before it is too late.

Notes on the examination of the prophetic fantasy of his novel "Brave New World" and compares his predictions for the future with our actual world.

This study of an extraordinary work of dramatic literature also addresses questions of the nature and dissemination of the scientific revolution. These facets are locked together: although the book does not deny that 'The Tempest' had deep roots in classical literature and elsewhere, it maintains that the play's remarkable dramaturgy and symbolism reflect subtle matters uniquely pertinent to its own fascinating time. A 'Brave New World of Knowledge' uncovers a number of previously little-appreciated connections of 'The Tempest' with specific problems or advances of knowledge, thus showing that the play reflected innovative proto-scientific modes of confronting the physical, biological, and human realms. It also argues that Shakespeare's play mirrored a new tendency to repudiate earlier Renaissance dreams of achieving omniscience and omnipotence. The play reflected a newer hope for knowledge based on speculative boldness linked with close observation, rational and sober precision, and a radical capacity to accept limitation and not-knowing.
