This is an integrated textbook on the endocrine system, covering the anatomy, physiology and biochemistry of the system, all presented in a clinically relevant context appropriate for the first two years of the medical student course. One of the seven volumes in the Systems of the Body series. Concise text covers the core anatomy, physiology and biochemistry in an integrated manner as required by system- and problem-based medical courses. The basic science is presented in the clinical context in a way appropriate for the early part of the medical course. There is a linked website providing self-assessment material ideal for examination preparation.

The Endocrine System

Year after year CISCE has been introducing changes in the curriculum of various classes. We, at Oswaal Books, closely follow every change made by the Board and endeavor to equip every student with the latest study material to prepare for the Final Examinations. The latest offering from us are these Worksheets. They are entirely based on the Latest Syllabus & Question Paper Design issued by the Board for Academic Year 2019-2020 These aim at providing comprehensive practice material for every chapter to ensure that every concept is revised in totality. These are prepared by experienced teachers who have translated their expertise into making these worksheets a wholesome study package. Every worksheet contains a mix of questions, for which the maximum marks and time are mentioned to create an exam-oriented study material. Our worksheets strictly follow the CISCE Syllabus and include the following: • Chapter-wise pullout worksheets with ample space for writing answers • All Typologies of Questions specified by the Board for the specific classes. • Previous Years Questions for effective exam preparation • Solutions can be downloaded free from our website www.oswaalbooks.com
