The Konica Minolta Magicolor 1690 MF is a high quality multifunction printer and generally performs well. It is a good scanner /fax and fairly easy to find your way around but ink cartridges are expensive, (even when using Printerland supplies which I have found to be the best rate around) but we do print an awful lot of documents as we are a very busy company so this is really only to be expected.

Success is a concept universally embraced but individually defined. Our definition of success truly depends on our individual goals. For example, your goal might be monetary, a physical accomplishment or a moral achievement. To flesh out this topic, we are adding a few comments made by famous and successful people in diverse fields - similar and familiar concepts to those put forward by the Premier Experts(r) in this book. Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome while trying to succeed. Booker T. Washington You can succeed best and quickest by helping others to succeed. Napoleon Hill The difference between a successful person and others is not a lack of strength, not a lack of knowledge, but rather a lack in will. Vince Lombardi Nothing can stop the man with the right mental attitude from achieving his goal; nothing on earth can help the man with the wrong mental attitude. Thomas Jefferson In our New Economy, the acquisition of success has been reformatted somewhat by business and industry even though its principles remain the same. The Electronic Revolution has changed the economic landscape as much as the Industrial Revolution. We now live more and more in "real time" and expect others to do the same. This era of instant communication has changed the ways in which we communicate and expect responses. To succeed today, it is useful, perhaps essential, to have a mentor. Errors will be made, but to minimize them will speed up your journey. The Premier Experts(r) in this book will help you along the way. They have been there and know the road. Who would be better to guide you? They will illuminate your path to The Soul Of Success..

Detectives Selena Alvarez and Regan Pescoli find their lives in danger after they become targets of a vicious stalker.

An innovative, informative, and entertaining history of Roman Britain told through the lives of individuals in all walks of life The Britain of the Roman Occupation is, in a way, an age that is dark to us. While the main events from 55 BC to AD 410 are little disputed, and the archaeological remains of villas, forts, walls, and cities explain a great deal, we lack a clear sense of individual lives. This book is the first to infuse the story of Britannia with a beating heart, the first to describe in detail who its inhabitants were and their place in our history. A lifelong specialist in Romano-British history, Guy de la Bédoyère is the first to recover the period exclusively as a human experience. He focuses not on military campaigns and imperial politics but on individual, personal stories. Roman Britain is revealed as a place where the ambitious scramble for power and prestige, the devout seek solace and security through religion, men and women eke out existences in a provincial frontier land. De la Bédoyère introduces Fortunata the slave girl, Emeritus the frustrated centurion, the grieving father Quintus Corellius Fortis, and the brilliant metal worker Boduogenus, among numerous others. Through a wide array of records and artifacts, the author introduces the colorful cast of immigrants who arrived during the Roman era while offering an unusual glimpse of indigenous Britons, until now nearly invisible in histories of Roman Britain.

**PREFACE.** THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend- ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...
