Distance-Time Graphs Worksheet. 4.6 124 customer reviews. Author: Created by CSnewin. Preview. Created: Jul 18, 2011 | Updated: Oct 31, 2017. Introduction to interpreting distance-time graphs, then 4 graphs which pupils must match to the descriptions. Pupils then sketch a graph from a description. Read more.

Distance-Time Graphs Worksheet | Teaching Resources

Distance time graphs worksheet 1 contains five questions involving average speed. Distance time graphs worksheet 2 contains four including drawing distance time graphs. shorter questions. Distance time graphs worksheet 3 contain three worded problems of progressive difficulty. All distance time graphs worksheets are suitable for 9-1 GCSE Maths as part of the UK national curriculum as well as international curricula.

Distance Time Graphs Worksheets - New & Engaging | Cazoomy

Using Distance Time Graphs. The graph below describes a journey that has several parts to it, each represented by a different straight line. Part A: \bf{09:00 - 11:00}, the person travelled 30 km away from their starting point and that took them 2 hours.. Part B: \bf{11:00 - 12:00}, we can see that the line is flat, so the distance from their starting point did not change - they were stationary.
