Trinomial Factoring Calculator

Step 1: Make sure that the trinomial is written in the correct order;

Acces PDF

Factoring

Trinomials A 1

the trinomial must be written in descending order from highest power to lowest power.

Step 2 : Decide if the three terms have anything in common, called the greatest common factor or GCF. If so, factor out the GCF. Do not forget to include the GCF as part of your final answer.
