Fanuc R 30 I A

The FANUC R-30iB Controller uses high-performance hardware and the latest advances in network communications, integrated IRVision, and motion control functions. The R-30 i B Controller features FANUC's exclusive new and easy-to-use touch screen I Pendant with 4D graphics.

Industrial Robot Controllers | FANUC America

Basic Description FANUC Robotics' SYSTEM R-30iA Controllers offer advanced networking software tools to connect robots and remote computers over an Ethernet network. FANUC Robotics also supports network communication through an external modem using the Point-to-Point Protocol (PPP).

SYSTEM R-30iA Networking Software - FANUC Robotics

FANUC's new R-30 i B Plus Robot Controllers feature the new I Pendant with enhanced screen resolution and processing capability. The new user interface, i HMI, can display guides for setup and programming, as well as tutorials from the main home page which has a design common to FANUC CNCs, enabling easier use of robots.

Robot Controllers | FANUC America

FANUC R30iA Controller Overview The FANUC R30iA controller is an advanced industrial robot controller that is available in the A-cabinet, B-cabinet, and Mate cabinet styles. Larger robots such as the FANUC M710ic 50 use the B-cabinet style due to larger servo amplifier (FANUC A06B-6107-H002) that the robot requires.Smaller robots like the FANUC M20iA can use either the A or B cabinet style.

Robots to help you reach your manufacturing goals in any industry. FANUC has the robotics products and expertise to help you succeed. With more than 100 robot models and over 40 years of helping manufacturers achieve their production goals, we're ready for any manufacturing challenge in any industry.

Industrial Robots for Manufacturing | FANUC America

The compact R-30iA Mate controller is built on the reliability of the standard FANUC R-30iA controller. However, the mate offers flexibility as it is available as a rack mount that fits into a standard 19" electronics rack. This controller offers huge benefits such as increased up-time, fast start up time (less than 1 minute), and a quick restart when necessary.
