### How To Rebuild A 289 Hi-Po - Mustang Monthly Magazine

Our 289-ci block find was a huge exception to the rule. Most small-block Fords, especially older 221s, 260s, 289s, and 302s, have been rebuilt at some time, leaving most of them with .020- and .030-inch oversize bores, making it hard to find rebuildable cores today. Perseverance is the key to finding a rebuildable block.
