The PIONEER Air Conditioner Multi Split Heat Pump comes with 2 indoor units and the outdoor unit to power both. This system can be used to cool and heat two separate spaces which makes it ideal for small homes and apartments. This dual system from Pioneer includes 2 remote controls so you have one to power each indoor cooling unit.

10 Best Split-System Air Conditioner Reviews By Consumer ...

A split air conditioner is composed of two separate units, a condensing unit and an evaporative coil (known as a "condenser," and a "coil" respectively in short-hand or slang). It is from these two separate units that a split air conditioner gets its name. These units are joined by a set of copper tubing known as a "line-set," which transfers refrigerant from one unit to another.

Mitsubishi Mini Split Air Conditioners, Ductless Heat ...

" Split systems " are the air conditioners that provide cooling to different "zones" within a home. These systems, unlike window units or portable air conditioners, are not self-contained appliances, but as the name suggests, are comprised of a two-part system. These are most commonly used in buildings without a comprehensive duct system.
