In November 2012, USP will publish a new General Chapter <17> Prescription Container Labeling in USP 36-NF 31. The standard provides, for the first time, a universal approach to the format, appearance, content and language of instructions for medicines in containers dispensed by pharmacists. The new USP general chapter offers specific direction to label manufacturers, pharmacies and prescribers on how prescription labels should be organized in a "patient-centered" manner that reflects ...
